

# FT4 & FT8 FIRE PROTECTION SYSTEM UPGRADES

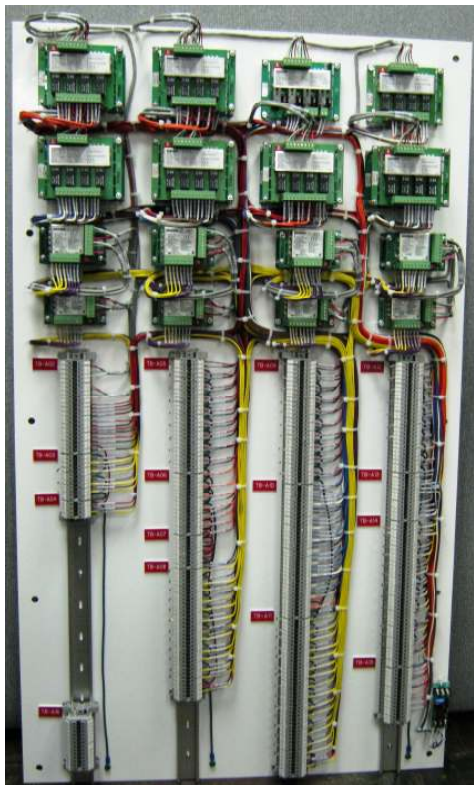

Turn-Key Controls Upgrade for Existing Whittaker (Systron-Donner) and FCI Fire Systems

[www.AssociatedFire.net](http://www.AssociatedFire.net)

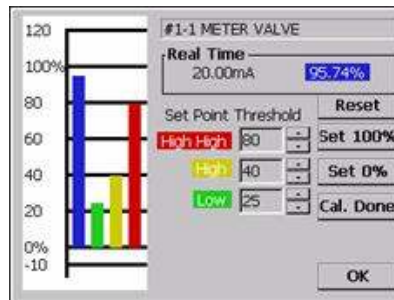

June 2013

**Fully Programmable Touch-Screen Controller**  
**ModBus (Serial or TCP/IP) Communications**  
**Listed / Certified by FM, CE/ATEX, GOST-R, & SAA**

**Real-time Display of 4-20 mA Gas Sensor Levels**

**Based on Original Design**  
**Same Mounting Holes**

**Same Dimensions**

**Turn-key design ensures no operational changes**

Associated Fire Protection is pleased to announce turn-key controls upgrades for the existing PWPS, Inc. (formerly Turbo, Power, & Marine) Whittaker (Systron-Donner) Model 904 & AFP-7200 FCI fire & gas systems. This upgrade is designed to utilize most existing field devices and is compatible with all fire suppression systems, including FM-200®, Halon, CO<sub>2</sub>, & Water Mist systems.

This upgrade will bring your fire system controls up-to-date with the current FT8 fire system platform—Allestec OnGuard Fire & Gas Detection System.

AFP designs and assembles a customized kit to streamline the upgrade for each application.
