

# 5 JOULE XENON & HIGH INTENSITY LED BEACONS EExd, Weatherproof SM87 & LED Ranges

Now VNIPO  
Approved

## Introduction

These certified beacons have been designed for use in harsh environmental conditions. The stainless steel or marine grade alloy enclosures are suitable for use offshore or onshore, where light weight combined with corrosion resistance and strength is required. Units can be painted to customer specification and fitted with identification labels.

LED version available, offering extended lifetimes.

A high temperature version is available – contact MEDC for details.
